Song Notes:

=====

The notes and chords are relative to the capo on the 6th fret, with the first fret actually being the 7th, and open strings being the 6th, etc. The chord names used refer to the chord shapes and positions relative to the capo instead of being representative of the actual notes being played. For instance, the G chord shown here is actually C#.

These chords are based heavily upon those used by the band during solo acoustic performances with some slight variations.
