Tuning: Standard (EADGBE, low to high)

Alright guys first tab so be nice. When tabbing this song I just barred all the chords using the E shape, seemed to make it a bit easier than switching to the barred A shape when playing the B. Only four chords though throughout so it s not too difficult :)

If you think you think you can see any way to improve the tab then let me know and I ll see what I can do to change it.
