Verse 1:

G **G2** **D/F#**
If both our lives pulled us apart and we were stuck on both coasts,
Cadd9 **G** **G2**
I would still find you. Every night you'd fall asleep and I would meet
D/F# **Cadd9**
You in your dreams, three-thousand miles away.

Cadd9 **D/F#** **Em** **D**
Cadd9
It's not perfection, But we've come so far. Tell me now, tell me you believe again. Well,

D/F# **Em** **D**
I can see you when I close my eyes, it's complicated, but I'll make it that simple.

Chorus:

G **G2**
Your pictures are the paper that lines my wall, I'm waiting for the
D/F#

Moment you come back, I'm tearing out the pages of my heart

Cadd9 **D**
And what you need is what you'll get from me. (X2)

Verse 2:

G **G2** **D/F#** **Cadd9**
Not at the end of the road, I'd be with you each day, every step of the way.
G **G2** **D/F#** **Cadd9**
I know it's late, this took too long, but I would write you this song, now could you listen to me?

Cadd9 **D/F#** **Em** **D**
If not for moments, what's this life we lead? Tell me now, tell me you believe again.

Cadd9 **D/F#** **Em** **D**
Three-thousand miles was just too far, it's complicated but I'll make it that simple.

You can end however you like. They do the little thing with the Mac voice, but whatever.

I am not positive on the chords in the bridge. Well, I am not positive about the whole thing,

this is my first chord thinger. But this is how I play and I think it sounds good enough to

pass. I m gonna put a cover up on youtube sometime so you could check that out if you

really want to.
