BEAUTIFUL THINGS
ANDAIN
Stardard Tunning EADGBE

B **C**
Got up early, found something s missing My only name.
B **C**
No one else sees but I got stuck, And soon forever came.
B **C**
Stopped pushing on for just a second, Then nothing s changed.
B **C**
Who am I this time, where s my name? I guess it crept away.

Em **D**
No one s calling for me at the door.
Em **D**
And unpredictable won t bother anymore.
Em **C** **D**
And silently gets harder to ignore.

Em **D**
Look straight ahead, there s nothing left to see.
Em **D**
What s done is done, this life has got it s hold on me.
Em **C** **D**
Just let it go, what now can never be.
-----)

Em **D**
I forgot that I might see,
Em **D**
So many beautiful things.
Em **D**
I forgot that i might need,
Em **D**
To find out what life could bring.

Em **D** ??????????????????????????????
beautiful things.

B **C**
Take this happy ending away, it s all the same.
B **C**
God won t waste this simplicity on possibility.

B C
Get me up, wake me up, dreams are filling This trace of blame.

B C
Frozen still I thought I could stop, Now who s gonna wait.

(-----

Em D
No one s calling for me at the door.

Em D
And unpredictable won t bother anymore.

Em C D
And silently gets harder to ignore.

Em D
Look straight ahead, there s nothing left to see.

Em D
What s done is done, this life has got it s hold on me.

Em C D
Just let it go, what now can never be.

-----)

Now what do I do?
Can I change my mind?
Did I think things through?

It was once my life
It was my life at one time.
