Say Anything

Song is pretty accurate. Had some difficulties with the musical interlude. The strings made it hard for me to hear the chords. What is there sounds good without the song, but doesn't fit when playing long. Feedback would be great.

**B** **E**  
I wait for you to say the words I want to be true  
**C# F# B**  
But you donâ€™t say anything do you  
**B E**  
Let it all come out. Restless heart, lazy mouth.  
**C# F# B**  
But you donâ€™t say anything do you  
**E F# B E F# B**  
And I would wait all my days to hear the words I need you to say  
**E F# G#**  
To keep me hanging on and not walking away  
**C# F# B**  
But you donâ€™t say anything do you  
**B E**  
Felt so wrong, held my tongue over long distance phones.  
**C# F# B**  
Now Iâ€™m not holding anything back from you.  
**E F# B E F# B**  
And I would wait all my days to hear the words I need you to say  
**E F# G#**  
To keep me hanging on and not walking away  
**C# F# B**  
But you donâ€™t say anything do you

(Interlude)

**B F# G# E B C# F# G# E**  
**B F# G# E B C# F# G# E B** (would like help on this part please)

**B E F# B E F# B**  
And I canâ€™t wait another day to say the words I always wanted to say  
**E F# G#**  
And darling I pray you feel the same way  
**F# E F#**  
All I want to say is I love you  
**G# F# B**  
All I want to sayâ€¦ All I want to say is I love you.
