

Rearview
Andra Day

G **C**
It s easy in the day but harder in the night
Am **D**
I thought I felt the pain but hadn t fought this fight
G **Em** **C**
You woke up next to me and then we said goodbye
Am **D**
And now it s settled in that something wasn t right

Am **Em** **D**
Oh, but we re a long way, long way from there
Am **Em** **D**
And it s a cold case, a cold case to bear

Em **C**
Now I can only see you in my rear view
G **D**
So where did you go, where did you go
Em **C**
I ruined our sweet tune
G **D**
But how could I know, how could I know
Am **C**
Once we were two dancing souls
G **D**
Now all that s left is skulls and bones
Am **C**
But I can only see my future
G **D**
In my rearview

G **C**
And don t we owe us more from all that in the past
Am **D**
We knew before them all that what we had would last
G **Em** **C**
Stayed up for days so long and all into the night
Am **D**
Our final morning dawned and you had taken flight

Am **Em** **D**
Oh, but we re a long way, long way from there
Am **Em** **D**
And it s a cold case, a cold case to bear

Em **C**
Now I can only see you in my rear view

G **D**
So where did you go, where did you go
Em **C**
I ruined our sweet tune
G **D**
But how could I know, how could I know
Am **C**
Once we were two dancing souls
G **D**
Now all that s left is skulls and bones
Am **C**
But I can only see my future
G **D**
In my rearview

Em **C**
So I can only see you in my rear view
G **D**
So where did you go, where did you go
Em **C**
I ruined our sweet tune
G **D**
But how could I know, how could I know
Am **C**
Once we were two dancing souls
G **D**
Now all that s left is skulls and bones
Am **C**
But I can only see my future
Am **C**
I can still see my future
G
In my rearview
