

**Neighbor Boy**  
**Andrea Marie Carr**

Okay this is my first submission and it s by ear; the chords are pretty accurate but I personally don t find that they sound nice strummed. I recommend you fingerpick the chords in whatever way you like :)

So Basically it s a Capo on 3: and the chords are G, 8-7-0-0-8-8, (relative to the Capo [this is basically a G moved up {for the sake of this, let s call it GU}]) Cadd9, A/F# those are the chords for the whole song basically.

For the intro:

```
E-8-----|
A-----7-----|
D---0-----|
G-----0-----|
```

that s the fingerpicking pattern for the whole song...E string, D string, A string, then G string

with that same fingerpicking you ll play: G CADD9 A/F# and the GU thing again.

**G**  
Neighbor boy..

**Cadd9**

Saw the light glow from your window, through the rain

**A/F#** **G**  
and through the haze across the yard.

**Cadd9**

Though I already have known you.

**A/F#** **G**  
I canâ€™t wait Iâ€™ve got to find you out â€" who you are. (who you are)

**GU** **G** **A/F#** **D**  
(uuh-uuh-uuh-uuh)

\*(Same as above)\*

Neighbor boy..

So funny and so sweet â€”

youâ€™re the joy inside my smile, and the confidence behind my beauty.

I saw you standing in the yard -

you saw me standing by the backdoor, waiting for you.

If you only knew,

how much I need you.

**A/F#**

GU

(oooooh) I will stay forever.

**A/F#**

I will make your town my own,

GU

this town in which youâ€™ve grown into a man.

**G**

You became my bestfriend.

**A/F#**

**Em**

On an afternoon in the sun.

**Cadd9**

On a Saturday like no other,

**G**

we fell in love with each other â€” for good.

**A/F#**

And then you said..

\*(Same chords as the very first verse)\*

Neighbor girl..

So come on darling lets get married,

and weâ€™ll live our lives together â€” across the way.

Youâ€™ll be the princess of my castle.

with the flowers for the crown upon â€” your head.

**A/F#**

GU

(oooooh) I will stay forever.

**A/F#**

I will make your town my own,

this town in which youâ€™ve grown into a man.
