C Em Am G
And I know you re never gonna understand

Its too late for you to stop and think
Too late to mention
I make a move and spill my drink

F G Am C
I would have let you leave
F G

Verse 2 - Same as Verse 1

The static waves across the screen
Define this notion
Back and forth and in between
Like my emotion
And I know youre never gonna understand
And won t you slow this down oh if you can
You swayed your hips and stole the breathe

That I was taking
I touched your lips and held your hand
When they were shaking

Chorus 2 - Same as Chorus 1
Look how we've fallen upon our knees
How we forgot it
These empty halls held our disease
Before we caught it
Now out the door and down the stairs from your apartment
I would have let you leave

Bridge - Same as Verses

Chorus 3 - Same as Chorus 1 & 2
The static waves across the screen
Define this notion
Back and forth and in between
Like my emotion
Now out the door and down the stairs
From your apartment
I count the steps from where I am
To where I started
