The Daylight
Andrew Belle

```
C#                      G#
Can?t believe she?s gone
 Bbm                 F#
I Can?t believe she?s gone
  C#                    G#         Bbm F#
I Can?t believe she?s gone away

C#                G#
 Darkness was my future
Bbm                 F#
 Hopeless were the patterns
C#               G#              Bbm F#
 Callous was my heart, so it seems

     Bbm             F#
Oh, I should sing a little bit faster
C#           G#
 I?m to blame for this disaster
Bbm       F#                     C#       G#
I?m, I m repairing my heart for you, you
      Bbm                 F#
Oh and I should breathe a little bit softer
C#           G#
 Oxygen reminds me I lost her
Bbm       F#                     C#       G#
I?m, I m repairing my heart for you, you

C#                       G#
 Can?t believe she?s gone, I
Bbm             F#
 Folded on the creases
C#               G#        Bbm F#
 Tore myself to pieces now

   C#                 G#
But blessed was the daylight that
Bbm                 F#
 Flooded my hearts windows, and
C#                       G#         Bbm F#
 Cleared the smoke that billows out

     Bbm             F#
Oh, I should sing a little bit faster
C#           G#
 I?m to blame for this disaster
Bbm       F#                     C#       G#
I?m, I m repairing my heart for you, you
```

```
        Bbm                    F#
Oh and I should breathe a little bit softer
C#         G#
 Oxygen reminds me I lost her
Bbm       F#                    C#      G#
I?m, I m repairing my heart for you, you

Bbm       F#         C#      G#              Bbm
 Peace my body, Oh my soul - to find, no I don?t mind
          F#               C#      G#         Bbm
Break my hardened heart to show, that I, yea I was blind
         F#         C#      G#          Bbm
Lay my body on the shore, to find, no I don?t mind
     F#          C#   G#
No, I, I don t mind.

C#                     G#
 Can?t believe she?s gone, I?m
Bbm               F#
 Casting out the demons
C#           G#         Bbm F#
 Letting go of reasons why

C#                    G#
 Welcome was the daylight that
Bbm                  F#
 Found where I was hiding, and
C#                     G#         Bbm C#
 Fought the dark residing there

     Bbm               F#
Oh, I should sing a little bit faster
C#            G#
 I?m to blame for this disaster
Bbm        F#                    C#      G#
I?m, I m repairing my heart for you, you
        Bbm               F#
Oh and I should breathe a little bit softer
C#            G#
 Chemicals reminds me I lost her
Bbm        F#                    C#      G#
I?m, I m repairing my heart for you, you
```
