The Enemy
Andrew Belle

Andrew Belle - The Enemy
Tab: AndyMuirlaslo
Standard Tuning
No Capo

Verse 1:

```
A#m                 F#                  C#     Fm
     My heart gets lost like a message

A#m              F#
     My head is on the clouds

        C#            Fm
     And I don t get it

A#m              F#            C#     Fm
     And i m so fashionably numb

A#m                F#          C#
     Sometimes it helps to forget

                 Fm
     Where we come from
```

Break: **A#m F# C# Fm**

Verse 2:

```
A#m              F#                    C#
     Out of the mire we were torn from

        Fm
     Remember

A#m              F#
     Out of the fire again

          C#        Fm
     But i m an ember

A#m            F#          C#
     I hold a banner for you

                 Fm
     But it s upside down
```

```
A#m                F#              C#
      You got a question or two

                  Fm
      But I m tongue tied now

Chorus:

A#m                F#              C#
      Don t try to follow me I would

                     G#
      Hold you down if I could

A#m                      F#         C#
      Make you the enemy I would

                     G#
      Let you down

A#m                F#              C#
      Don t try to follow me I would

                       G#
      Hold you down if I could

A#m                      F#         C#
      Make you the enemy I would

                     G#
      Let you down

Verse 3:

A#m           F#                   C#      Fm
      I took a ride on the champagne

A#m               F#                   C#      Fm
      You took a flight over San Fran Bay

A#m      F#          C#       Fm
      We washed misunderstood

A#m                    F#                C#           Fm
      Your heart was warm like a brother s should

A#m                   F#           C#      Fm
      But then the gallow gave way

A#m                   F#           C#
      Sometimes they call after you

                   Fm
```

But you say

Chorus:

A#m   **F#**   **C#**
        Don t try to follow me I would

                      G#
        Hold you down if I could

A#m   **F#**   **C#**
        Make you the enemy I would

                       G#
        Let you down

A#m   **F#**   **C#**
        Don t try to follow me I would

                       G#
        Hold you down if I could

A#m   **F#**   **C#**
        Make you the enemy I would

                     G#
        Let you down

Bridge: (Play 8 times)

A#m

          I hold you down

          F#
        I hold you down

        I hold you

C#

          I hold you down

            G# (**Fm** on final time)
        I hold you down

        I hold you

 Chorus:

A#m   **F#**   **C#**
        Don t try to follow me I would

```
                G#
     Hold you down if I could

A#m                   F#        C#
     Make you the enemy I would

                G#
     Let you down

A#m                   F#          C#
     Don t try to follow me I would

                G#
     Hold you down if I could

A#m                   F#        C#
     Make you the enemy I would

                G#
     Let you down

Bridge: (Fade out)

A#m
      I hold you down

        F#
     I hold you down

     I hold you

C#
      I hold you down

        G#
     I hold you down

     I hold you

Enjoy!
```
