

September 6Th  
Andrew Huang

[Verse 1]

I need your touch, babe, over and over  
Right here and right now and when we re older  
It s been a long time since i first talked to you  
And there is still nothing i d rather do

[Chorus]

Well, here we are, here we are  
We always knew we d make it this far

[Verse 2]

This sacred union let nothing sever  
You know i ll love you love you forever  
Oh in the morning and in the afternoon  
Oh in the evening and underneath the moon

[Chorus]

Well, here we are, here we are  
We always knew we d make it this far
