

Till I Hear You Sing
Andrew Lloyd Webber

Found the other versions... twas terribly odd to my ears, so i spent some one
one time
with my piano and the actual song, and WALA! One of my favourite songs. EVA. =D
(RAOUL IS SUCH A DOUCH! just sayin. ;D)

G
The day starts, the day ends
G/C **G**
Time crawls by
G **Em** **Am**
Night steals in, pacing the floor
CSus4
The moments creep,
G **Em**
Yet I cant bear to sleep
Am **D7**
Till I hear you sing

G
And weeks pass, and months pass
G/C **G**
Seasons fly
G **Em** **Bm**
Still you dont walk through the door
CSus4
And in a haze
G **Em**
I count the silent days
Am **D7** **G**
Till I hear you sing once more.

Bm
And sometimes at night time
Bm
I dream that you are there
Em **F F/A D**
But wake holding nothing but the empty air

G
And years come, and years go
G/C **G**
Time runs dry
G **Bm**
Still I ache down to the core

CSus4

My broken soul

G Em

Cant be alive and whole

Am D7 G

Till I hear you sing once more

Em

And music, your music

Em

It teases at my ear

Em F F/A D

I turn and it fades away and youre not here

Let hopes pass, let dreams pass

G/C G

Let them die

Without you, what are they for?

Ill always feel

No more than halfway real

Till I hear you sing once more.....
