Intro: **G** - **Em** - **C**

```
  G                         G
I thought I was hopeless, I thought I was broken
  Em                          Em
I struggled to laugh when the whole room was joking
  C                       A                 C
I waited in the cold, but the door wouldn t open  til I
     D                   G
 Til I heard your voice in a dream
```

```
   G                       G
And nothing comes easy when everyone s rushing
   Em                            Em
The signal s got speed but there s no real connection
  C                       A                 C
I tried reaching out but it was just my reflection  til I
     D                   G
 Til I heard your voice in a dream
```

```
  Em      G        C       G
So sing to me and I will forgive you
    Em         D         C          G
For taking my heart in the suitcase you packed
Em     G        C          G
Sing to me like the lights didn t blind you
```

```
    Em              C          D                                   G
Like you blinded me when I heard your voice in a dream

    G                            G
And I could have loved you but you had the hunger
      Em                              Em
For life in the lights, so when they called your number
   C                              A
I couldn t compete with the spell you were under
        C  D                      G
Still I, I hear your voice in my dreams

    Em       G        C        G
So sing to me and I will forgive you
    Em          D          C          G
For taking my heart in the suitcase you packed
Em       G        C          G
Sing to me like the lights didn t blind you
      Em          C        D                    Em    C    G    Em
Like you blinded me when I heard your voice in a dream

C - G - Em
C - G - Em

  C                              G                    Em
I thought I could love you but you had the hunger
        C                      G                    Em
Oh, and nothing comes easy when everyone s rushing
   C                          C
I thought I could love you, I thought I could love you
```
