Somewhere its gonna be  
**G**                                    **Am**  
Better everybody needs a little hope  
**F**                    **C**        **G**  
Ten thousand souls waiting on bus and it never rolled  
**F**  
So it goes

**Am**        **F**                    **C**  
No ones leaving California  
**Am**        **F**                    **G**  
Pacifica transic overload  
**F**                                    **Am**  
Gold dust dreamers never warn ya  
**G**  
And my guitar strums  
I am the American

**F**                    **C**  
Got a walking stick  
**G**                    **C**  
And an old sock hat  
**F**                    **C**  
I got dirty hands

And I got a dream to match  
**F**                    **C**        **G**                                    **F**  
I got a pocket full of government issue cures for poverty

No ones leaving California  
Pacifica transic overload  
All my friends live on the corner  
And my guitar strums  
I am the American
