

Gravity

Angie Aparo

Artist: Angie Aparo

Song: Gravity

Album: The American

Tabbed by Optophobic@yahoo.com

Standard tuning (drop D on bass, not guitar)

D G A
I saw a wreck at a light
Two cars that gave up the fight

D G A
Nobody left to be saved
No steam left under the gauge

D G A
And in that carnival light
The show began to unwind

D G A
And I saw just how it goes
Out on that old two-lane road

G
I been saving time for another life
D G
Maybe happiness is coming but you don t know when
A
when...

D G A
The gravity
D G A
Of whether you were ment for me
D G A
Came crashing down with sovereignty
D G A
In someone else s tragedy

I saw the old man again
He only talks about when
There was so much to believe
Before the cancer to be
He can t remember the song
The words all come out wrong
And all his records are cracked
He knows you can t get it back

It s only faded time
Maybe happiness is coming but you don t know when

when...

The gravity
Of whether you were ment for me
Came crashing like a symphony
In someone else s used to be

G

A And we carried our cross like a clover **G**

And we smoked cigarettes and we lied **A**

About the things we would feel when we re older **G**

Oh God what a fine waste of time **A**

And I miss you are you coming over **D G A**

Gravity
whether you were ment for me
Came crashing like a...symphony

The gravity
Of whether you were ment for me

Gravity
came crashing down
Came crashing down
