You know that I

В

You know I ll never say goodbye

She smiles for me
It don t mean a thing
It don t take away the way it was before
I m foolish and grown
I should ve known
Her s was a world made for just one throne
I m a waste of a momma s boy
It s a shame they say
There s so much you know he ll never enjoy
All the love you come to destroy

How many days can you waste it boy
It s a shame they say
There s so much you know he ll never enjoy
All the love we come to destroy

There s a moment lost in time When she says hush
I m on your side
It s just the two of us
Though they might try

There s a moment lost in time
When she says hush
I m on your side
It s just the two of us
You know that I
You know I ll never say goodbye
