Letra

=====

Composição: Kiko Loureiro

Remember the first time you ve faced the dark
Why were you so afraid?
Hiding so many secrets inside
When fearshave got to be tamed

I promise I ll still be there
To keep my promise
I ll still be there

To watch over dreams at night
And follow you through the day
You shot the doors but I m right behind
Where shadows remain

I promise I ll still be there
To say i promise
I ll still be there

Don t ask me why we ll be like brothers
Skating on the ice of mortall loneliness

Live and learn with your mind
Find a way out of madness
You dream on (of) paradise
Who s gonna take you there?
