

**Horse And Cart**  
**Angus & Julia Stone**

Hey guys and girls this is my first tab so if it isnt completely accurate try not to hold it against me!

Thanks

The song is basically two chords the entire way through with a capo on the 1st fret

Also occasionally with the A chords you must add your pinky to the 3rd fret B string and pull off. I am too lazy to write out the finger patterns but they are very simple you will easily figure it out.

Thanks
