Tuning: standard

G **Am**
Venturing our way into the dark
C **G** **C**
Where we can slip, one takes one by the hand
G **Am** **C**
Let them crawl into the logs that dam
G **C**
Brown changed the hue of their pants

G **Dm**
Excited and screamin their voices go wild
Dm **C**
And rise with the birds mating up in the pines
G **Am** **C**
Down to puddles that breathe, covered by leaves
G **C**
With mud they ll make prints on their backs

G
But How?

G **C**
Will it be just like they re dreaming?
G **C**
Will it be just like I m dreaming?
G **C**
Will it be just like they re dreaming?
G **C**
Will it be just like I m dreaming?

G
But How?

G **Am** **C**
If they re awake till the dawn, well we won t
G **C**
Fret that they don t have our eye
G **Am**

The ghosts came crowding around and then

C G C

I woke, you slept there on your side

G Dm

From our window, two lanterns draw signs on the night

Dm C

And light our two shadows, I watch with delight

G Am C

Will I want them to be who they will be

G C

Or to be more like their dad?

G

But How?

G C

Will it be just like they re dreaming?

G C

Will it be just like I m dreaming?

G C

Will it be just like they re dreaming?

G C

Will it be just like I m dreaming?

G

But How?

G C

When influence is threatened

G C

Maybe I should let them

G C

Maybe we should let them

G C

And I have a question:

Dm

Are you also frightened?

G C

Are you also frightened?

Dm

Are you also frightened?

G C

Are you also frightened?

G

But How?

G C

No one should call you a dreamer

G

Not now!
