## Also Frightened Animal Collective

ALSO FRIGHTENED - Animal Collective Tabbed by: NoSurprises11 Email: NoSurprises11@yahoo.com Tuning: standard Venturing our way into the dark С Where we can slip, one takes one by the hand Am Let them crawl into the logs that dam Brown changed the hue of their pants Excited and screamin their voices go wild And rise with the birds mating up in the pines Down to puddles that breathe, covered by leaves With mud they 11 make prints on their backs G But How? Will it be just like they re dreaming? Will it be just like I m dreaming? Will it be just like they re dreaming? Will it be just like I m dreaming? But How? If they re awake till the dawn, well we won t Fret that they don t have our eye

The ghosts came crowding around and then
С
Ι
    woke, you slept there on your side
From our window, two lanterns draw signs on the night
And light our two shadows, I watch with delight
                       Αm
Will I want them to be who they will be
Or to be more like their dad?
G
But How?
Will it be just like they re dreaming?
Will it be just like I m dreaming?
Will it be just like they re dreaming?
Will it be just like I m dreaming?
But How?
      G
                   C
When influence is threatened
               C
Maybe I should let them
                C
Maybe we should let them
            C
And I have a question:
Dm
Are you also frightened?
Are you also frightened?
Dm
Are you also frightened?
Are you also frightened?
But How?
No one should call you a dreamer
```

Not now!
