

**Father Time**  
**Animal Collective**

This is not my tab, I am sharing it on this website, and don't take credit for its creation:

But here is Father Time, By Animal Collective

Father Time: (transcription by Chocolate Boy from CA)

**G, C**

**G**

Open up your locket  
Does solidarity breed from a good foundation?

**C**

Things speed out of date  
Now you can be falling  
And when you're up it's blown up

**G**

With all new buildings painted they're not your colors

**C**

And all the places you went to you don't get what they offer  
But hey that's Nathan and didn't he pass a long time ago?

**G**

Where'd he go?

**G**

We exorcised the weekend  
Now all the demons can't play but they snuck into Thursday

**C**

We're looking out for panthers from the road again  
But didn't they pass a long time ago?  
Where'd they go?

**Dm**

Luck

**Em**

It's not real

**C**

Oh it's real

**Am**

No it's not real

**Dm C G Em**

Maybe it's only real when lightning landed and hit you right where you were standing

**F Em Dm Em**

Or when your imagination shows you what only time's supposed to tell you

**Am C G Em F**

And then I imagine time he's got real big hands and bigger pla-a--a-a-ans

**G C**

From a long time ago

**G**

And did I remember suitcasing all the things in my head

**C**

And all the expectations of doing something special

I could be gone today

But where do they take me?

**G**

(Same as first)

Luck

It s not real

Though my feelings say it s real

Maybe it s only real when someone blinds you

When they had always been so kind to you

Imagination won t get moldy can t wait for time to unfold me

And then I imagine time he s got real big hands and bigger plans

From a long time ago

**G, C**

There are none too small
