**G**

The lonely wonâ€™t hold me for good

Peaceful as dreaming she stood

**Am**

To see her, to be her, to change

As if like a kiss weâ€™re the same

**C**

**Bm**

So hold me up, hold me up

**Em**

If only I could be you

**C Bm**

Eliza

**Am G**

My sister, my pistol below

If you could know all that I know

**Am**

Iâ€™m falling, no warning, no way

Tomorrow, tomorrowâ€™s too late

So hold me up, hold me up

**Em**

I know that I could be you

**C Bm**

So dressless and godless I wait

**G**

To leave this soul behind

**F**

Untangle the jangle of bells

They ring my fear through the night
