I shoulda known it wouldn't happen cus it wasn't right
Em C G
I shoulda known it cus it happens every god damned time
Em C G
Almost thought we coulda been something, almost thought we could have tried, but
Em C G
It didn't happen so I need you to get out my life

Em C G
But the other night I had you in my head, called you on the phone
Em C G
Want you stealing my time even though I said I wanna be alone
Em C G
Oh and I should know this could never work, oh, this could never end well
Em C G
Know it's only human but I never learn, I want you for myself

Em C G Bm
I can take the fall: the pain, the pleasure
Em C G Bm
And you can take it all, for worse, or better
Em C G Bm
But oh, what if we're wrong? What if we're not all that we thought?
Em C G Bm
Then we won't make it long, but hey, I guess that's us

Em C G
We couldn't help it but you know that doesn't make it right
Em C G
You say I'm selfish but I know you felt the same inside
Em C G
Everybody says it's all okay, everybody says we're fine but
Em C G
Guess someone else is what you need to make you feel alright

Em C G
But tomorrow night I'll probably call a cab, show up at your door
Em C G
Love you in the night time, leave you in your bed, cold and wanting more
Em C G
Oh and I should know this could never work, oh, this could never end well
Em C G
Know it's only human, but I never learn, I need you for myself
