Every single person you see
Feels the same dumb pain
And everybody gets imprisoned
With overwhelming shame
Relax with it
        C
Breathe out
Every day there s something tragic
That helps somebody see
[Chorus]
There s real magic
       C
It s so real
It s real magic
It s so real It s so real
[Verse]
We all want to be important but are
Always filled with dread
We can t get outside the borders
that are made up in our head
```

```
Lay back
G
Then you say you can relate to it
And I know just what it means
[Chorus]

It s real magic
       C
It s so real

                         D
With gratitude the written word reminds me everyone s the same
Without the fear of being alone We would understand
It s not my place to figure out how to keep the moment still
Without the fear of who we are we would understand

It s real magic
       С
It s so real
      C
It s so real
