[Verse 2]

Trying to be his only friend
He wasn t open to strangers then
He turned his head and walked away
As he turned around and started to cry, why me?
Stuck in the lions den
To scared to let help in

He had to make a sacrifice
He tried to cope with it
And couldn't find the strength
Could anybody tell me what Georgie did

[Chorus]

[bridge]
There'll be a better place for you and me
Free your mind
Get away, follow me
Follow me to a place
Free your mind let's go to, to a place
Where you can be free, oh Georgie (let yourself be free)
Free your mind, let yourself go the rest will follow
