

**The Great Southside Twins**  
**Anthony John Clarke**

[Intro]

C G F C G F C

[Verse]

I saw you at 8:15 by the roundabout  
And then again at the Butter Market too  
I didn't even know that was your brother  
Or if you'd changed your clothes and it was still you

[Verse]

You need to have more defining differences  
Each one of you could be unique  
But I don't really wanna change anything about you though  
I just want to follow you and keep lots of notes on you now

[Chorus]

The great Southside twins  
How we love the great Southside twins  
The great Southside twins  
How we love the great Southside twins

[Verse]

Next month it'll be time for the May Fair  
The best time of year here, they say  
And you both will no doubt be there  
Which is good for me, cause I can watch you all day

[Verse]

Last year I was gonna ask you not to leave early

I even thought about calling out to you

But I stopped cause you didn't even know me  
Even if I know all about you

[Chorus]

The great Southside twins  
How we love the great Southside twins  
The great Southside twins  
How we love the great Southside twins

[Verse]

And I just wanna let you know how proud I am  
I spent four years watching you grow  
Maybe you could text me on your whereabouts  
Or if you get a new coat or hat and I don't know

[Verse]

Or maybe I should just keep my distance  
The judge says I can't do this stuff anymore  
But you know I'm never gonna let anybody harm you ever  
I'm just watching your door in case you come outside

[Chorus]

The great Southside twins  
How we love the great Southside twins  
The great Southside twins  
How we love the great Southside twins

[Chorus]

The great Southside twins  
How we love the great Southside twins  
The great Southside twins
