**D-F#-G** (chords going to verse 2)

(repeat verse 1 chords **D-B-F#-G-D**)

Promises of a better tomorrow  
Promises bought on borrowed dollars  
No disaster ever looked so great  
So what I say  
As old men deliver nothing but terror/war  
We ask ourselves what are we dying for?

(repeat refrain chords **G-A-B-A G-F#-G-A**)

And so the kids are sick and tired of the news today  
Sick and tired of all your lies  
We want the truth

(repeat chorus chords **D-B-A-G**)

It isn't going to be no paradise  
It isn't going to be no paradise  
Forget the claims  
It isn't going to be no paradise  
Oh no  
We need to take the world back now  
We need to take control right now

**D-F#-G**(Chords going to bridge)

(repeat the verse chords)

The richest of the rich, dine in fancy chic cafes  
Not a worry all their days  
The cost of luxury, throughout empires of history  
Is vengeance from those empire enslaves

You better hear us now

(repeat chorus)
