This is the whole intro of the extended album version.  
If you wish to get the whole song which I tabbed for one acoustic guitar, you can email to this adress:

The version I made fits perfectly well to the original song and contains several melodic fills, a good solo and of cause also all used chords. It s sort of a mix of the non-vocal version and the vocal version with Linda Sundblad of Lambretta. It is the only existing version that can be played

by  
guitar, that Äs why I made it  
:-)  
have fun...
