Capo 4.

[Intro]

G

[Verse 1]

G

All those wasted hours we used to know

Bm **Em** **C**
Spent the summer staring out the window

G

The wind it takes you where it wants to go
First they built the road, then they built the town

Bm **Em** **C**
That's why we're still driving round and round

G

And all we see, are kids in buses longing to be free

[Chorus]

G

G/B

Wasted hours, before we knew

Am **Em** **G** **G/B**

Where to go, and what to do

Am **Em** **G** **Csus2**

Wasted hours, that you made new

Em

Bm

G

And turned into, a life that we can live

[Verse 2]

G

Some cities make you lose your head

Bm **Em** **C**

Endless suburbs stretched out thin and dead

G

And what was that line you said

Wishing you were anywhere but here

Bm

Em

C

You watch the life you're living disappear

G

And now I see we're still kids in buses longing to be free

[Chorus]

G

G/B

Wasted hours, before we knew

Am
