Reach For You
Archie Roach

Intro
E   B7   E   B7

              E   E7   A
When the night upsets me
                A7   E   B7
And my bad dreams won t let me   get to sleep at all
      E   B7
The whole night through
        E   E7 A
When the darkness surrounds me
     A7
And all my demons just hound me
       E   B7
That s when I call
      E   E7 D7
And reach for you

       A7
You have always seen me through
    D7
All the times I ve cried
     F#7
Now I don t know what I would do
   B7
Without you by my side

       E   E7   A
When I m sad and lonely

                   A7   E   **B7**
And it seems like you re the only   friend I ve found
     E   B7
At least one that s true
       E   E7   A
When they all desert me
     A7
And anybody tries to hurt me
 E   B7   E   E7 D7
Well I turn around   and reach for you

               A7
Sometimes I don t feel so strong
     D7

```
Even when I try to be
        F#7
Everything would turn upside down
      B7
If you weren t here with me
    E         E7    A
Well you fill my heart with gladness
            A7
And don t criticise my madness
      E           B7      E       B7
When I m naked,          cold and blue
        E                   E7   A
Well hold me till the morning
        A7
And slowly it comes dawning
        E           B7                    E
That it s sacred              when I reach for you

Reach.
```
