[Verse]

What was I doing there?
Am Fmaj7
Met you in hell or somewhere
F Bm
You were looking for a friend
Am Fmaj7
You told lies to keep afloat
F C
You drugged me when you said hello
Am Fmaj7
Scared and slipping down your hole
F Bm
Crack my head and watch it flow
Am Fmaj7
I stumbled on another rock
F C
You kissed me once but you forgot
Am Fmaj7
You left me with a punctured heart
F Bm
I slowly sank and fell apart
Am Fmaj7
I don't know how I ended in
F C
A body dripping deep in sin
Am Fmaj7
Your skin is cold and leaves no light
F Bm
Like a blistered freezing night
Am Fmaj7
You attract the low of them all
F C
Please don't ever let me know
Am Fmaj7
If you should ever pass me by

[Chorus]

Nothing could be greater

Bm

Nothing could be greater

Am

Nothing could be greater than goodbye
