Archive

D E A D  
All this time I m distracted from the world

D/B E  
The world outside of your arms

A E D  
All I need is here

E A D  
Try and find, a way to say the things

D/B E  
The things I feel when you smile

A E D  
They take away my words

E A D D/B  
You know, that people come and go

E A  
It s here for me

D E  
When things in life run me down

A D  
All I need is you

D/B E  
You wanted a love song

A E D  
You asked for a love song

E A  
You wanted a love song from me

D D/B  
You asked for a love song from me

E A  
Now there s a love song for you

B  
Yeah, I know, I don t hear you, I don t see you, I can t feel you  
You know, it s always my fault, communication is such a let down  
I ain t proud of my behaviour  
I thank the lord, you re still here (Repeat x 6)

B  
Yeah I know that I push you  
Yeah I know that I push you

Yeah I know, yeah I know, yeah I know that I push you

I know that I push you (7x)

Try and find, a way to say the things

The things I feel when you smile

They take away my words

You know, that people come and go

You wanted a love song from me

You asked for a love song from me

Now there s a love song for you
