### Area 11

**F#m** **D**

A music box, a lullaby, A restless sleep through an IV high

**E** **D C# Bm A G#m F#m**

A whispered voice inside your mind "One day I will find you"

**F#m** **D**

I saw that you were lonely too, Something broken inside you

**E** **D C# Bm A G#m F#m**

I reached out and took your hand, you reached out and you took me

**F#m**

I repressed that time, I locked it all inside

I locked it all inside, "Cause it's easier to hide

All the hurt, all the loss, All the lines between the dots

Everything that I forgot, I see it clearly

**D** **E**

Regress into a child again Do you feel it now?

**F#m**

Baby can't you see that you're losing your mind, that you're losing your

**D Bm**

Mind?

**F#m**

A shot to the head leaves it all behind, leaves it all behind

**D** **E**

And I'll tear you apart

**D** **E**

Reach out your hands and catch me Reach out your hands and you tear me apart

**D** **E** **C#m** **C#m E**

**F#m**

Reach out your hands and catch me, Reach out your hands and you tear me apart

**F#m** **D**

A music box, an alibi, But we are simply killing time

**E** **D C# Bm A G#m F#m**

I wish I'd see inside your mind, I wish I'd seen inside you

**F#m** **D**

Well this entropy, common ancestry

**E** **D C# Bm A G#m F#m**

Almost the same, but not enough Never forgiven, but still in love

**F#m**

I repressed that time

I locked it all inside

I locked it all inside

â€˜Cause itâ€™s easier to hide  
All the hurt, all the loss  
All the lines between the dots  
Everything that I forgot  
I see it clearly

**D** **E**  
Regress into a child again Do you feel it now?

**F#m**

Baby canâ€™t you see that youâ€™re losing your mind, that youâ€™re losing your
