Intro: **E-B/E-A-F#m7-B-E-**; (2x)

**E**                      **B/E**                      **A**  
I still have a photograph of you  
     **F#m7**              **B**                      **E**  
I've kept it all these years  
                         **B/E**                      **A**  
I guess it would make you laugh to know  
     **F#m7**              **B**                      **C#m**  
It still brings back the tears  
                         **C#m+M7**                      **A**  
From another place and time  
**F#m7**              **B**                      **E** **B/E-A-F#m7-B-**  
When your love was mine

**E**                      **B/E**                      **A**  
A picture of innocence, your eyes  
     **F#m7**              **B**                      **E**  
They move me even now  
                         **B/E**                      **A**  
If I had the confidence, I'd try  
     **F#m7**              **B**                      **C#m**  
To bring you back somehow  
                         **C#m+M7**                      **A**  
To another place and time

When your love was mine
