

This Light Between Us
Armin van Buuren

Capo on 6th Fret in order to have the same chords as the original song. Enjoy:

Am F G
Can you see this light between us
F
Keeps me breathing through the storm
E
My head above the crowd
Am F G
Can you see this light between us
C F
So come a little bit closer now
E
Its in our eyes

Am F
You and me, we re just believers
G C
Believing what we hold
F G
But sometimes we fall to pieces
Am E
In the dusk
Am F
So we should dance like this forever
G C
We re safer on the ground
F G
When a million lights surround you
Am E
And you re moving to the sound

Am F
Don t waste another moment
G C
It s waiting for you now
F G
So dive in this new begining
Am E
Let the glowing show you how

Am F G
I will take, this light between us

F

Keeps me breathing through the storm

E

My head above the crowd

Am

F

G

Can you see this light between us

C

F

So come a little bit closer now

E

Its in our eyes

(The rest of the chords are the same)

We ll take a ride out side together
The streets are lined with gold
Where the good become the wanted
not the soul

Don t waste another moment
I m waiting for you now
So dive in this new begining
And let the colour show you how

I will take, this light between us
Keeps me breathing through the storm
My head above the crowd

Can you see this light between us
So come a little bit closer now
Its in our eyes
Its in our eyes

So dive in this new begining
And let the colour show you how

I will take, this light between us
Keeps me breathing through the storm
My head above the crowd

Can you see this light between us
So come a little bit closer now
Its in our eyes
Its in our eyes

Its in our eyes
