#### A-B-G#m-A

**A** **B**  
When the smoke finds a way to your nose

**G#m** **A**  
Itâ€™s telling you boy that its time to go

**A** **B** **G#m** **A**  
Then the smell gets in your hair and your clothes oh no oh no

Kids aflame need something new  
They bay at the moon and they lie in the still  
They stole away all the memories too from you

And they lie  
they lie to your face  
you were in love  
you were on your way I donâ€™t mind  
if heavenly stays  
you were in love sent you on your way again

found you huddled in the corner still  
we talked in the dust about who we killed  
you can stop it you can start at will you will

And they lie  
they lie to your face  
you were in love  
you were on your way I donâ€™t mind  
if heavenly stays  
you were in love sent you on your way again

kids aflame have a saying they always say they say  
you and me and this place wonâ€™t ever change wonâ€™t change

and they lieâ€¦|
