

Girl From Mars

Tuning: Standard

Picked this up off the top of my head, not from a CD so it might be in the totally wrong key...but it s right to my voice when I m singing along to it...

Not sure of all the words so some of them are ???? or guesses and I don t have the CD here to get them right now, I ll stick em up as a correction if I can or if anyone wants to email em to me then feel free....also you ll need to pick up the strumming and timing for the solo off the CD. (in the solo my keyboard doesn t have a curvy arrow key for some reason...so the / means a bend just so you know)
