VERSE 1

G D
You look at me
Bm E
Curious what I m made of
G D
Sugar or steam
Bm E
And what kind of man I love
G D
What I believe
Bm E
What I know and what I crave
G D
And all my pet peeves
Bm E
Where I ve set and when I stain
G
And do you know...

CHORUS

D
Cause I m not here to be around
A G
And be that girl that you forget about
A D
Cause all I want is just to be a song
A G
That you can feel longer than just right now
A D
So c mon, Baby, let me be the girl
A G
That you can count on to rock your world
A D
And then you ll see there s so much more than curves
A G
And then you ll see that you and me belong

VERSE 2

G D
Do you know my vice

Bm E
 And how to get under my skin
G D
 Just what I like
Bm E
 And where I want you to begin
G D
 Do you know my middle name
Bm E
 And where I m sensitive the most
G D
 Each night I pray
Bm E
 And do you think I fit that mold
G
 Do you know...

CHORUS

D
 Cause I m not here to be around
A G
 And be that girl that you forget about
A D
 Cause all I want is just to be a song
A G
 That you can feel longer than just right now
A D
 So c mon, Baby, let me be the girl
A G
 That you can count on to rock your world
A D
 And then you ll see there s so much more than curves

 And then you ll see that you and me belong
