

Second Song

Assembly of Dust

This is a great song that I have yet to see tabbed out, so i did it my self. Its fairly accurate, but the strumming can be a little tricky. The solos are over the Verse chords progression and are in the key of A.

Im not sure about the accuracy of the lyrics, just typed them out quickly while listening to the song.

Please Rate! and I didn t feel like figuring out the intro but it doesn t sound that hard so maybe someone with post it.

(Continue pattern throughout)

They came from somewhere simple

A place too plain to be described
she found her own dimensions
red like the color of her eyes

she looked with one eye green
and one eye cold, cold blue
she looked with both of them
shiver through and through

Chorus x2

Heard his name ring hallow
as it sputtered from her mouth
head the door frame shutter
as she shuttle from the house

she left one green eyed child,
one with cold, cold blue
shee looked at both of them
wondering if he would...wondering if he would doo

Chorus
