

Time has passed
Astroboy

La cancion es toda D A Bm G.

D A Bm
The time has passed and we stay here
G
we gather together to the sun,
D A Bm
the sunset passed and we're still here,
G
we're growing older underneath the stars,
tell me don't feel it, tell me don't cry
tell me don't cry on those lonely nights,
tell me don't feel it, tell me don't cry
tell me don't cry on those lonely nights.

The time has passed and we stay here
we gather together to the sun,
the sunset passed and we're still here,
we're growing older underneath the stars,
tell me don't feel it, tell me don't cry
tell me don't cry on those lonely nights,
tell me don't feel it, tell me don't cry
tell me don't cry on those lonely nights.

The time has passed and we stay here
we gather together to the sun,
the sunset passed and we're still here,
we're growing older underneath the stars,
tell me don't feel it, tell me don't cry
tell me don't cry on those lonely nights,
tell me don't feel it, tell me don't cry
tell me don't cry on those lonely nights

SALU!
