

**Secret On Our Lips**  
**Astronautalis**

This is a basic interpretation of the song I worked out to play acoustically.. hopefully it sounds good and if anyone has any corrections let me know.

Capo 4

**G** **Bm**  
I know they say it s over, we can t go on like this  
**G** **D**  
The moonlight makes us ardent and the sun returns our sense  
**G** **Bm**  
But we ain t much for orders, we can t go on like this  
**G** **D**  
But we can live forever with secrets on our lips

**G**  
We work in secret under cover of darkness  
**Bm**  
Hands steadied by the weight of our lie  
**G**  
Broke branches, codes and chalk markings  
**D**  
I ll leave a trail only you can find

**G**  
All the alleys in Manhattan are gone kid  
**Bm**  
They sold the shadows when the rent got high  
**G**  
So we sneak into the Central Park and  
**D**  
Work in secret for the rest of the night

**G**  
We work in secret for the rest of the night  
**Bm**  
We work in secret for the rest of the night  
**G**  
We work in secret for the rest of the night  
**D**  
And keep it all a lie

**G**  
I know they say it s over, we can t go on like this  
**Bm**  
The moonlight makes us ardent and the sun returns our sense  
**G**  
But we ain t much for orders, we can t go on like this

D

But we can live forever with secrets on our lips

G

We found a crawl space behind the vending machines

Bm

Pressed each other against each other until we fell asleep

G

Woken shirtless arm in arm by a cleaning lady s screams

D

Her bottom lip was swollen from being pressed between my teeth

G

I could have stayed there for weeks hands in her hair

Bm

Hands creeping innocent under the waist of my jeans

G

Fingertips tracing the shape of our lips

D

We spoke in breaths and that s it

G

It s not a bad life to live making out all day

Bm

Living off the food and drinks inside the vending machines

G

The sun s wide awake she rode off on her bike alone

D

I never saw here again, we never speak

G

The night before I met the girl I swore would change my life

Bm

Move across the country try to break a wild horse to a wife

G

But that heartbreak was years away, right?

D

And this girl was right here with locks to pick and trees to climb

G

I remember you well at the Thunderbird motel

Bm

We were talking just so strange and so sweet?

G

Two bits will buy you ten on the vibrating bed

D

I kissed your skin behind the vending machine

G

If you ask me right now why I never did tell

Bm

Anyone about our evening with me

G

I don't know, hell

**D**(let ring)

Some secrets are just things that you keep

**G**

**Bm**

I know they say it's over, we can't go on like this

**G**

**D**

The moonlight makes us ardent and the sun returns our sense

**G**

**Bm**

But we ain't much for orders, we can't go on like this

**G**

**D**

But we can live forever with secrets on our lips

**G**

With secrets on our lips

**Bm**

With secrets on our lips

**G**

With secrets on our lips

**D**

With secrets on our lips
