

## Superhuman Touch Athlete

(intro 2x) C Am G

I m on fire, and nothing s gonna hold me back  
Endless blue sky, and a pocketfull of tricks to try  
You pick a colour and I ll sing it for you, I know you feel the same way  
Say say, say you feel the same way...

(refrão)

Fingertips alive - Superhuman touch  
Can t get enough of this electric love  
Burning the sun with just a wave of your hand  
Sparks flying out in every direction  
There s more of this to come, I think it must be heaven  
Burning the sun with just a wave of your hand

I m on fire, golden echoes upon my face  
Tell those dreamers, they can dream up all they like in this place  
You pick a colour and I ll sing it for you, I know you feel the same way  
Say say, say you feel the same way...

(refrão)
