

Strangers

Atomic Kitten

Everything you do says you re leaving me
Everything you say shows you don t believe in me
How was I supposed to know this was gonna hurt a soul
You and I are strangers in our home
You and I are strangers in our home

Everything I feel proves there s nothing left in me
Everything I hear takes away the breath in me
How was I supposed to know this was gonna hurt a soul
You and I are strangers in our home
You and I are strangers in our home
