Tuning: Standard (EADGBE)

Chords used: **C Bm F#m G D Dsus Em A**

In the intro, Since the Em and F#m chord transitions are fast you can omit them and just play the first 3 chords.

Also in the prechorus, the Dsus can alternatively be done as a regular D chord except play the 5th fret on the high E string instead.

For the outro the transitions are fast so you can skip Em if you wish.
