

Sparrow

Attack in Black

Attack in Black- Sparrow

capo 7th fret, standard tuning

I really like this song, and it s not too hard to play.

there s a few little basslines between parts, but they aren t too difficult to figure out

and to add in with the chord changes. most of the transitions are from a D chord to Em or G,

and you can play |-0-2-4-| on the D string to play the bassline an octave higher

anyway, here it is. Sorry if any of the lyrics are off, i just copy/pasted them

from a google search.

I can edit it later if theres any lines that are off

G D
