[Intro]

C#m A

[Verse 1]

C#m

Death be not proud C#m Though men may fear you А And think you great Α When they draw near you C#m Cause you take us down C#m We can t escape the fact Α But I ve learned by now Α Your rite is just an act C#m So lay my bones inside the hearse C#m Take me in and do your worst А But tell me why you choose to boast Α You re just a shadow and a ghost C#m I ll breathe again you ll be surprised C#m When you re the only one who dies Α Death be not proud Α You ll soon find out [Chorus] Е You re not the end Е You re just the start of me А

А Is the real heart of me G#m So don t pretend G#m в7 в That you can keep me locked forever in your grasp \mathbf{E} But you re just a ship Е Sunk on the ocean floor G#m Your flag was stripped G#m When you hit heaven s shore C#m So close your grip C#m Α But the only thing you ll ever hold is dust and ash Α Death be not proud of that

C#m A

[Verse 2]

Beneath my skin

C#m

Dates on a stone **C#m** They re just an alibi **A** A simple line

Α

It can t sum up my life

C#m

Beneath the tears **C#m** The wreaths, the letters, and the roses **A** God composes a new life **A** As the old one decomposes

C#m

So come on death, I ve got your dues **C#m** Take them any way you choose **A** And shake the heavens with your smile **A** If my bones are worth your while **C#m** But this coffin s just a womb C#m Thanks to the cross and empty tomb Α My God will get the final laugh А Death, here He comes! Your epitaph! [Chorus] Е You re not the end Е You re just the start of me А Beneath my skin А Is the real heart of me G#m So don t pretend G#m в в7 That you can keep me locked forever in your grasp Е You re just a ship Е Sunk on the ocean floor G#m Your flag was stripped G#m When you hit heaven s shore C#m So close your grip C#m But the only thing you ll ever hold is dust and ash Α Death be not proud! А You set me free at last! [Solo] A C#m Α Lay down my life А And find it again C#m Dust turns to dust C#m But my heart and soul ascend

Α

God bless the path

```
C#m
Α
That leads me through life s shallow end
Α
I lay down my life
Α
And find it at last
C#m
Dust turns to dust
C#m
But I escape this shipwrecked mast
Α
God bless the call
Α
                                 C#m
That drowns the voices from my past
Α
Lay down my life
А
And find it anew
C#m
Joy turns to joy
C#m
At the thought of breaking through
Α
God bless the pain
                                 C#m
That makes me desperate for your view
Α
Death be not proud
А
What are you boasting for?
C#m
Thanks be to God
C#m
Your walls are just an open door
Α
God bless the place
А
Where you can t haunt me anymore
