She smiled and said you always know exactly how to keep me here

Bb
I said babe it s not me it s our love that you see skies so clear

F **C**
And so blue and so beautiful at the same time

Dm **Bb**
And when the clouds move in they disappear when you open up your eyes

F **C**
Cus you shine, you shine so bright, you paint your picture in the sky

Dm **Bb**
And every night I think of you and know that everything s alright

F **C**
Where ever you go I ll be right with you

Dm **Bb**
I ll be your shadow so I never have to miss you

F **C**
I know it s hard when were so close but you re so far away

Dm **Bb**
I ll keep you in my heart and baby that is where you ll stay

F **C**
Well it s 3 a.m and I can t sleep I can t stop thinking of you

Dm **Bb**
So I call you up and you ll answer somehow just like you always do

Bb
I guess we ll finish this conversation when I see you in my dreams

F **C**
Where ever you go I ll be right with you

F **C**
I know it s hard when were so close but you re so far away
Dm **Bb**
I ll keep you in my heart and baby that is where you ll stay

I think the **C** is actually a **E/F** (or 069800), I have no idea how you call it, but
it sounds better if you play B.
