Count On Me - Audio Summer

Check

F# C# Ebm B

F# **C#**
She said the situation never had to happen this way
Ebm **B**
I said come on everything happens for a reason baby
F# **C#** **Ebm**
She smiled and said you always know exactly how to keep me here
B
I said babe it s not me it s our love that you see skies so clear

F# **C#**
And so blue and so beautiful at the same time
Ebm **B**
And when the clouds move in they disappear when you open up your eyes
F# **C#**
Cus you shine, you shine so bright, you paint your picture in the sky
Ebm **B**
And every night I think of you and know that everything s alright

F# **C#**
Where ever you go I ll be right with you
Ebm **B**
I ll be your shadow so I never have to miss you
F# **C#**
I know it s hard when were so close but you re so far away
Ebm **B**
I ll keep you in my heart and baby that is where you ll stay

F# **C#**
Well it s 3 a.m and I can t sleep I can t stop thinking of you
Ebm **B**
So I call you up and you ll answer somehow just like you always do
F# **C#**
I said babe, I just can t, I just can t keep you off my mind
Ebm **B** **F#**
And she says I know exactly how you feel and baby it s alright
C# **Ebm**
And now it s starting to get late and were both falling asleep
B

And the phone slips from your hand and gets lost in your bed sheets
F# **C#** **Ebm**
And I keep talking and as if you re still listening and I fall asleep
B
I guess we ll finish this conversation when I see you in my dreams

F# **C#**
Where ever you go I ll be right with you
Ebm **B**
I ll be your shadow so I never have to miss you
F# **C#**
I know it s hard when were so close but you re so far away
Ebm **B**
I ll keep you in my heart and baby that is where you ll stay

I think the **C#** is actually a **F/F#** (or 069800), I have no idea how you call it,
but
it sounds better if you play B.
