[Verse 1]

Jesus, I need You; lover, don t leave
Did You call my name
Just to plunge me deep
Into the darkness?
Do You know that I can t even hear Your voice?

[Verse 2]

Accusers around me on every side
Whispering to me that I m willfully blind
That I m clinging to nothing
But all that I want is to clear the noise

[Pre-Chorus 1]

So I reach out my hands to find You where You have been hiding
Maybe I ll see You deep in the eyes of the dying

[Verse 3]

And You know I m not asking You for a sign
I trusted Your promise, I gave You my life
But I guess I just miss You
I feel so alone in the silence

[Pre-Chorus 2]

So I move closer to plague and disease and disorder
Maybe I ll hold You in the beggars and thieves that You died for

[Chorus]

Just stay, just stay with me

Dm **Am** **G**
Oh, just stay, just stay with me

Dm **Am** **G**
I ll rejoice in my suffering

Dm **Am** **G**
If You just stay, just stay with me

[Outrol]

Dm **Am** **G**
I look to the hills, I lift up my eyes to the heavens

Dm **Am** **G Gsus G**
Maybe I ll see You flickering on the horizon
