[Verse 1]

Jesus, I need You; lover, don't leave
Did You call my name
Just to plunge me deep
Into the darkness?
Do You know that I can't even hear Your voice?

[Verse 2]

Accusers around me on every side
Whispering to me that I'm willfully blind
That I'm clinging to nothing
But all that I want is to clear the noise

[Pre-Chorus 1]

So I reach out my hands to find You where You have been hiding
Maybe I'll see You deep in the eyes of the dying

[Verse 3]

And You know I'm not asking You for a sign
I trusted Your promise, I gave You my life
But I guess I just miss You
I feel so alone in the silence

[Pre-Chorus 2]

So I move closer to plague and disease and disorder
Maybe I'll hold You in the beggars and thieves that You died for

[Chorus]

Just stay, just stay with me

Oh, just stay, just stay with me

I ll rejoice in my suffering

If You just stay, just stay with me

[Outrol]

I look to the hills, I lift up my eyes to the heavens

Maybe I ll see You flickering on the horizon
